

Agents of Change – Unhurried Horizons: Slow Tourism 2026

This is to certify that

Numan Yesil

has successfully participated in the 2nd Learning Tour

The 2nd Learning Tour took place from Monday, 14th September to Saturday, 26th September 2026. The program consisted of work equivalent to ten credit points in terms of the European Credit Transfer System. The participants of the program represented the following countries: Finland, Germany, Estonia, Spain, Slovenia, and Lithuania.

The objective of the project AGENTS is to create awareness of slow tourism as an alternative to mass and overtourism, with a focus on the priority of "Environment and climate change". During the Learning Tour, students and teachers traveled through Europe via train, bus, and ferry to three different partners' locations (Vantaa, Tallinn, and Ljubljana) during the same trip, and have lessons and activities on slow tourism, regenerative tourism, and innovation workshops to collaborate with locals and local businesses to create new services and products for slow tourism, network, and participate in creating awareness and solutions. The priority "Supporting innovation and entrepreneurial skills of students" was addressed by engaging students in planning and carrying out slow tourism study trips (LTT), and by them working together with local communities and businesses to innovate solutions to the fast, often polluting travels of tourists, and learning how to promote and travel slowly, learning problem-solving and networking skills. Students documented all of this work, and much of it is shared on social media.

The main topics included:

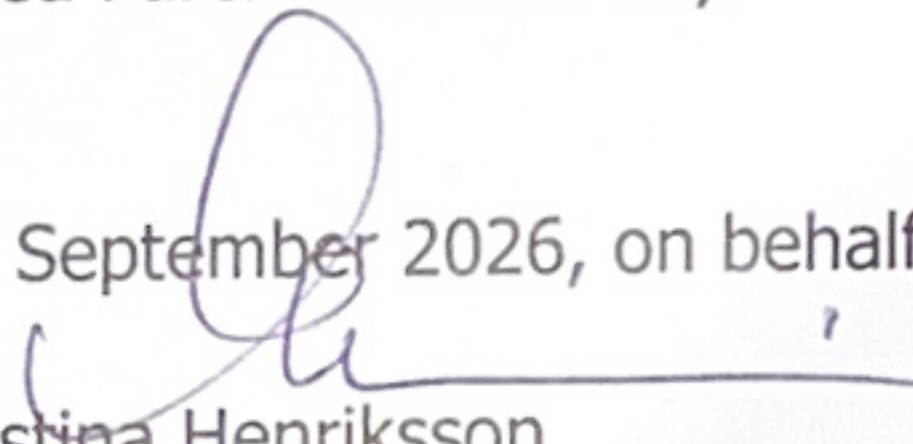

- overtourism versus slow tourism
- reflective on slow tourism to create awareness of it
- promoting regenerative tourism and its practices
- developing slow tourism destinations
- balancing and engaging in visitor management strategies
- innovation in sustainable tourism
- engaging local communities
- developing innovative ideas
- marketing and promotion of slow tourism
